Sketching Norman Taylor's Classes in Movement Analysis

An Intro to Physical Theatre - actor created ensemble 2022 08 22—09 10 in
Österå, Falun, Dalarna, Sweden, organized by Kjersti Webb with Amy Russel
and Norman Taylor

Norman Taylor prepared me well, days in advance, he announced he had a question to pose. Making sure to catch my immediate, spontaneous unguarded response. Placing me so he had me in full sight!
Would You like to sketch during one of my classes?
Yes! was my immediate, respons, with acclamation!
... So here is the result! I would love to do some more - sketching.
Marica

Totally unedited, uncensored sketches from two classes in movement analysis during two days in 2022. A learning process for me as well as for the participants sketched.

Sketching commenced, abruptly interrupted, while hastily moving coal and charcoal over paper along with gaze and the participants moves. Trying to keep up, finding a strategy to look and to fasten the precious fleeting moments of moving poetry.
